

C65 Sandhurst Bronze Series 2

Owner's Handbook

Time on your side

Your Christopher Ward watch has been designed in Britain and engineered in Switzerland by highly talented craftspeople. This ensures not only accurate and precise timekeeping, but also brings a real pride of ownership that only watches of the highest quality standards can hope to deliver.

You have made an investment, a good one, and the aim of this manual is to help you make the most of that investment in what we hope will be a lifetime of ownership.

C65 Sandhurst Bronze Series 2

As a brand licensed by His Majesty's Ministry Of Defence to produce watches bearing official insignia, Christopher Ward is proud to present the second-generation C65 Sandhurst.

Like the original C65 Sandhurst, this stunning bronze version takes the classic 1969 Smiths W10 as its starting point but brings the design up to date with improved luminosity on the indexes and Arabic numbers (we use two separate lumes), and a bold design that's even easier to read.

Yet there are some differences between the C65 Sandhurst and the W10. Taking pride of place upon the backplate, the British Army's Heraldic badge has been intricately embossed, its lion, crown and crossed swords deep-stamped with polished surfaces.

Not only is the C65 Sandhurst Bronze an officially licensed tribute to the British Army, it doubles as a reminder of the continuum of UK watch design throughout the ages.

Features

- Swiss made
- 26 jewel self-winding mechanical chronometer
- 38-hour power reserve
- Christopher Ward 'Colimaçoné' finish on rotor
- Anti-shock system
- Bronze Light-catcher™ case
- High-definition screw-down backplate with deep-stamped British Army Heraldic badge
- Screw-down crown stamped with twin-flags motif
- Unique engraved individual serial number
- Twin-flags logo at 12 o'clock
- Glass box sapphire crystal
- Matte black dial with Super-LumiNova® Grade X1 numerals and indices
- Printed minute track
- Fully brushed hands
- White seconds hand with red tip

Technical Information

Calibre	Sellita SW200 COSC
Case	Bronze
Diameter	38mm
Height	11.9mm
Lug to lug	43.7mm
Weight	62g
Water resistance	15 ATM (150 metres)
Vibrations	28,800 per hour (4 Hz)
Timing tolerance	-4/+6 seconds per day
Strap width:	20mm

Setting the time

The crown should sit flush to the case (position **1**) in order to maintain water resistance.

- First unscrew the crown anti-clockwise from the case to position **2** for winding in power. Wind in a clockwise direction to re-power the watch. Your C65 Sandhurst Bronze Series 2 has a maximum power reserve of 38 hours when fully wound. Normal wearing will allow the rotor to start re-powering the watch over time after putting on your wrist.
- Pull gently into position **3**. This position is used for handsetting and stopping of the seconds hand. For precise time setting it is recommended to pass beyond the desired minute and to set the hand backwards.

1. Crown screw-down position
2. Manual winding
3. Time setting

Straps

As you would expect, we place as much emphasis on the quality of our straps as we do our watches. We only use the finest materials in our straps, with quick-release pins also included for your convenience.

The following guidelines explain how easy it is to use, adjust and replace your Christopher Ward strap.

Using the quick-release pins on your strap

1. Locate the quick-release pin on your strap.
Pull the pin to the side to detach your strap.

2. To reattach your strap, align the pins to the lug holes and click the strap into position. Repeat for the other side.

Water resistance

Although your watch has been through vigorous static pressure testing, it is worth remembering that there are many variables that can affect the water resistance of your watch. For instance, arm movements during swimming and the sudden impact of diving and water sports will drastically increase the pressure the watch is under.

Wearing your watch in the bath, shower, or sauna can also have an effect as a rapid increase in temperature can cause seals to expand and in extreme cases, malfunction or create condensation.

For these reasons, the water resistance rating of your watch (as shown) should only ever be considered a guideline and we strongly recommend they are always adhered to.

1 ATM (10 metres)

Safe to wear your watch while washing your hands with tap water

15 ATM (150 metres)

Safe to use while snorkelling in open water

100 ATM (1000 metres)

Professional deep sea diving

3 ATM (30 metres)

Washing your car and/or general hose pipe usage

30 ATM (300 metres)

Ideal for experienced divers and those practising scuba-diving

5 ATM (50 metres)

Water resistant to most household shower units

60 ATM (600 metres)

Professional divers, experiencing prolonged exposure underwater

60|60 Guarantee

Your watch is constructed from the finest components and powered by a Swiss mechanical movement. As with all quality watches, with the right care and attention, your new timepiece has the potential to become an heirloom, giving joy to future generations.

It's for this reason we've created an industry-leading approach to after-sales care, starting with our famous 60|60 Guarantee – the most comprehensive warranty in watchmaking.

60-day free returns

We hope you'll be happy with your watch from the moment it arrives. However, if that's not the case you have 60 days to return it in perfect, unused condition (with all its accompanying paperwork) in order to receive a replacement or full refund.

60-month movement guarantee

Your watch is powered by a precision-engineered Swiss movement. In the rare event that your movement develops a fault within five years we'll repair it for free under warranty. Your watch will need to be sent to us for a full diagnosis before processing a repair under warranty. We will always keep you informed before carrying out any work.

Service and repairs: the Christopher Ward way

Our approach to service and repairs is about uncompromised quality and great value for money. The process, led by our expert technicians, won't cost the earth and will have the watch back on your wrist in reasonable time. We recommend you service your watch every three to four years to keep it in peak condition.

PLEASE NOTE:

The 60|60 Guarantee does not cover accidental damage. Any service or repair by a third-party retailer will void your 60|60 Guarantee. For more details, please visit our website.

Keeping in touch with Christopher Ward

From humble beginnings in 2004 (our first workshop was a refurbished chicken shed!) Christopher Ward has won a global following – and can justifiably claim to make the most affordable luxury watches in the world.

For many of our fans, the philosophy of trying to put luxury watches within the reach of everyone, is as smart as the timepieces themselves. This open approach sees co-founders Mike France and

Peter Ellis communicate personally with customers and listen to their feedback. Something that helps us improve our offering to you. As the owner of a Christopher Ward watch, if you ever need to get hold of us we're at your service. And if you'd like to explore the CW world more, you can follow us on social media.
