

C60 Trident Reef

Owner's handbook

Time on your side

Your C60 Trident Reef watch has been designed in England and handbuilt in Switzerland by highly talented craftspeople. This ensures not only accurate and precise timekeeping, but also brings a real pride of ownership that only watches of the highest quality standards can hope to deliver.

You have made an investment, a good one, and the aim of this handbook is to help you make the most of that investment in what we hope will be a lifetime of ownership.

The features and technical details of your C60 Trident Reef

- Swiss made
- 38-hour power reserve
- 26 jewel self-winding mechanical movement
- Central hacking seconds
- Elaboré “Colimaçoné” finish on movement
- Twin-flags engraving over “Colimaçoné” finish on the rotor
- Stainless steel case with aluminum/ceramic mid case sleeve
- Unidirectional bezel with aluminium/ceramic insert
- Super-LumiNova® Grade X1 BL C1-filled hands and indexes
- Anti-reflective sapphire crystal
- Screw down display caseback
- Two piece, light sandblasted and matte lacquered dial
- Unique engraved serial number

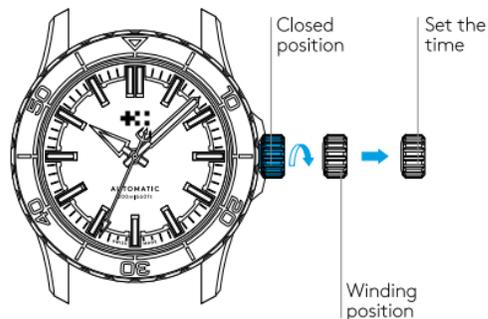

Calibre	Sellita SW200-1
Case	Stainless steel with aluminium or ceramic sleeve
Diameter/Height	41mm = 11.45mm 44mm = 11.45mm
Weight	41mm = Aluminium bezel 68g 41mm = Ceramic bezel 71g 44mm = Aluminium bezel 80g 44mm = Ceramic bezel 83g
Water resistance	20 ATM (200m)
Vibrations	28,800 beats/hour (4Hz)
Timing tolerance	+/- 20 secs/day
Power reserve	38 hours
Jewels	26
Lug to lug	41mm = 47.9mm 44mm = 51.41mm
Strap width	41mm = 22mm 44mm = 22mm

Setting the time

Unscrew the crown* anti-clockwise from the case to position 2 for winding in power. Wind in a clockwise direction to re-power the watch.

Pull gently into position 3. This position is used for handsetting and stopping of the seconds hand. For precise time setting it is recommended to pass beyond the desired minute and to set the hand backwards.

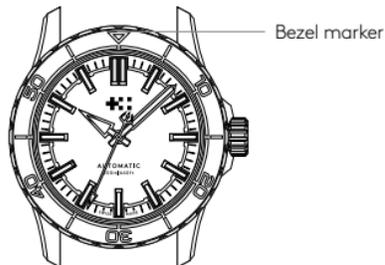

*The screw-down crown should sit flush to the case (position 1) in order to maintain water resistance.

Diving with your watch

If using the bezel for a dive and let's say the recognised maximum "no-stop time" is 55 minutes, then in this example (shown right) the time at the surface immediately before the dive is 10.08am. However the bezel marker is at the 12.00 hr position.

Move the bezel marker anti-clockwise so that it aligns with the 8 minute position.

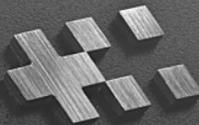

You can now read that the 55 minute no decompression limit will occur at 3 minutes past the next hour.

It is always useful and best practice to make a note on a dive slate before entering the water and to carry a set of dive tables should the dive plan change during the course of a dive. A safety stop for 3 to 5 minutes at 15ft is recommended at the end of all dives. A safety stop for 3 minutes at 15ft is required any time you come within 3 pressure groups of a no decompression limit, and for any dive to a depth of 100ft or deeper.

Changing your strap

- 1 Locate the quick-release pins on your strap or bracelet. Pinch the pins inwards to detach.
- 2 To reattach your strap or bracelet, pinch the pins inwards, and align the spring bars so they click securely into the lug holes on each side.

Detaching and reattaching a strap

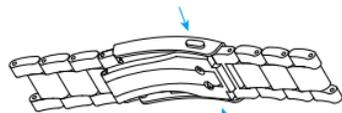

Detaching and reattaching a bracelet

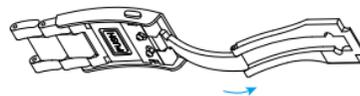

Using the micro adjustment on your bracelet

- 1 Press buttons to release.
- 2 Pull open the clasp.
- 3 There are three micro adjustment positions, which allows for a maximum extension of 6mm. To extend, push the button to unlock and simultaneously pull on the bracelet into the desired position.
- 4 To shorten, simply push the button and then slide the bracelet back into the clasp.

Servicing your watch

Our approach to service is about uncompromised quality and great value for money. The process, led by our expert technicians, won't cost the earth and will have the watch back on your wrist in reasonable time. We recommend you service your watch every three to four years to keep it in peak condition.

Your 60|60 Guarantee

Your Christopher Ward watch is covered by our industry-leading 60|60 Guarantee.

This means that you can return it 60 days after purchase and receive a full refund (as long as the watch is in perfect condition).

And if your watch develops a mechanical fault within five years (60 months), we'll repair it for free. Please use the warranty card opposite to arrange this.

If you ever need to get hold of us we're at your service. And if you'd like to explore the CW world more, you can follow us on social media.
