

C8 Pilot Revival Special Edition

Owner's Handbook

Time on your side

Your Christopher Ward watch has been designed in Britain and engineered in Switzerland by highly talented craftspeople. This ensures not only accurate and precise timekeeping, but also brings a real pride of ownership that only watches of the highest quality standards can hope to deliver.

You have made an investment, a good one, and the aim of this manual is to help you make the most of that investment in what we hope will be a lifetime of ownership.

CEO & co-founder

C8 Pilot Revival Special Edition

It's not often you get to own a piece of watchmaking history.

But that's one of the reasons why your C8 Pilot Revival Special Edition is such an important watch.

If you're not familiar with its DNA, the timepiece is a faithful – but improved – version of the C8 Pilot, Christopher Ward's first pilot's watch.

Based on the B-Uhren' timepieces of World War II, the C8 Pilot showed that CW could produce an elite watch that could compete with the best. And do so at a price that made it accessible to as many people as possible.

A look at the beautifully proportioned dial of the C8 Pilot Revival Special Edition gives you some clue of what's been achieved. Mirroring the original C8 Pilot, the indexes and reference triangle at 12 o'clock are coated with Super-LumiNova® C1 BL Grade X1 for timekeeping after dark.

Meanwhile, the oversize crown adds further authenticity – glove-wearing pilots couldn't adjust their watches with regular-size crowns.

Finally, there's the 'Chr. Ward' logo that sits at 12 o'clock. A logo that was retired in 2016 (with not a little controversy), for some CW fans it retains a special place in their hearts. To see it return – even for one time only – is something that will give you a warm glow all over.

Features

- Swiss made
- 250-piece limited edition (200 steel, 50 black DLC)
- Self-winding 26 jewel mechanical movement
- 38-hour power reserve
- Central hacking seconds hand
- Anti-shock system

- Super-LumiNova Grade® X1 BL C1 hands and indexes
- Matte black hands
- Marine-grade 316L stainless steel case or marine-grade 316L stainless steel case with black DLC coating
- Exhibition caseback
- Anti-reflective sapphire crystal
- Push-down crown
- Eco-friendly luxury presentation case and owner's handbook

Technical Information

Calibre	Sellita SW200-1
Case	316L stainless steel
Diameter	44mm
Height	11.3mm
Lug to lug	53.2mm
Weight	81g
Water resistance	5 ATM (50 metres)
Vibrations	28,800 per hour (4Hz)
Timing tolerance	-20/+20 seconds per day
Strap width	22mm

Setting the time and date

The crown should sit flush to the case (position **1**) in order to maintain water resistance. To re-power the watch after a period of non-use, simply wind the crown in a clockwise direction.

- For setting the time pull gently into position **2** and turn anti-clockwise to advance the time. For precise time setting it is recommended to pass beyond the desired minute and to set the hand backwards. Push the crown back to position **1**.

1. Manual winding

2. Time setting

Straps

As you would expect, we place as much emphasis on the quality of our straps as we do our watches. We only use the finest materials in our straps, with quick-release pins also included for your convenience.

The following guidelines explain how easy it is to use, adjust and replace your Christopher Ward strap.

Using the quick-release pins on your strap

1. Locate the quick-release pin on your strap.
Pull the pin to the side to detach your strap.

2. To reattach your strap, align the pins to the lug holes and click the strap into position. Repeat for the other side.

Water resistance

Although your watch has been through vigorous static pressure testing, it is worth remembering that there are many variables that can affect the water resistance of your watch. For instance, arm movements during swimming and the sudden impact of diving and water sports will drastically increase the pressure the watch is under.

Wearing your watch in the bath, shower, or sauna can also have an effect as a rapid increase in temperature can cause seals to expand and in extreme cases, malfunction or create condensation.

For these reasons, the water resistance rating of your watch (as shown) should only ever be considered a guideline and we strongly recommend they are always adhered to.

1 ATM (10 metres)

Safe to wear your watch while washing your hands with tap water

15 ATM (150 metres)

Safe to use while snorkelling in open water

100 ATM (1000 metres)

Professional deep sea diving

3 ATM (30 metres)

Washing your car and/or general hose pipe usage

30 ATM (300 metres)

Ideal for experienced divers and those practising scuba-diving

5 ATM (50 metres)

Water resistant to most household shower units

60 ATM (600 metres)

Professional divers, experiencing prolonged exposure underwater

60|60 Guarantee

Your watch is constructed from the finest components and materials available including one of Switzerland's finest mechanical movements. As with all watches of this quality, with the right care and attention, your new Christopher Ward watch has the potential to become an heirloom piece giving further joy to future generations.

It's for this reason we have created our industry leading approach to after-sales care, starting with our famous 60|60 Guarantee which remains the most comprehensive guarantee in the world of watchmaking.

60 Day Free Returns

Our success depends on you being completely happy with your new Christopher Ward watch. You have up to 60 days from despatch to return your watch, with free shipping, and receive a replacement or full refund, for which the watch must be in perfect, unworn condition and accompanied by all its original packaging and paperwork.

60 Month Movement Guarantee

Your watch has a top-quality precision engineered Swiss movement – but if it develops a movement fault within 5 years, and has been serviced by us at the recommended interval (within a maximum of 4 years from date of despatch), we will repair it for free under warranty. Not all mechanical problems or quartz battery replacements are

considered movement faults and your watch will need to be sent to us for diagnosis and service history checks, before processing a repair under warranty.

Servicing and Repairs - the Christopher Ward way...

Our innovative approach to service and repair means that having your watch attended to doesn't mean months of waiting followed by an exorbitant bill. We have developed a quick, easy and affordable expert service and repairs process that doesn't cost the earth and has the watch back where it belongs – on your wrist – in reasonable time.

We recommend you service your watch at intervals of 3-4 years to keep it in peak condition and to maintain your **60 month guarantee**. If your watch develops an issue within 60 months of despatch, we will first check its service history before progressing a repair. If you have not had your watch serviced at the recommended interval, we will not cover the cost of the repair under warranty, and will recommend a maintenance service in addition to any repair work due.

PLEASE NOTE:

The 60|60 Guarantee does not cover accidental damage. Any service or repair by a third party retailer will void your 60|60 Guarantee. For more details, please visit our website.

Keeping in touch with Christopher Ward

From small beginnings just 17 years ago (our first workshop was actually a refurbished chicken shed!), Christopher Ward has won a worldwide following and can justifiably claim to manufacture the most affordable luxury watches in the world. For many, the philosophy behind the brand, of trying to put luxury watches within the reach of everyone, is as smart as the watches themselves. The very open approach of the business sees Mike and Peter, as well as the rest of the team, spending lots of time communicating

personally with customers – listening to feedback which helps us continually improve as we grow. As the owner of a Christopher Ward watch, if you ever need to get hold of us we are at your service. There is always something new on our website, across our social media communities and on the Christopher Ward Forum – informative and fun, these are the best places to join the conversation about the latest new releases, news and offers in the world of Christopher Ward.
