

C60 Trident 316L

Limited Edition

Owner's handbook

Christopher
Ward

Time on your side...

Your Christopher Ward watch has been designed and engineered by highly talented craftspeople to ensure not only accurate and precise timekeeping but also to bring a real pride of ownership that only luxury items of the highest quality can ever hope to deliver.

You have made an investment, a good one, and the aim of this handbook is to help you make the most of that investment during what I hope will be a lifetime of ownership.

A handwritten signature in black ink, appearing to read 'Chris', written in a fluid, cursive style.

C60 Trident 316L Limited Edition

The Trident range has always been flexible to the possibility of new configurations and limited edition models.

Past iterations have introduced different movements; new complications; an alternative bezel. Regardless of which option you and many others have opted for since its inception, the Trident name is one synonymous with robust build quality and powerful design.

But with the 316L LE, this may be the most extraordinary Trident we've released yet. Perhaps what surprises most is how striking it is in its simplicity; the singular steel aesthetic of case and bezel provides a demure contrast to the vibrant orange of the dial, whilst remembering an old CW favourite, the C6 Kingfisher – a watch that remains highly sought after by collectors.

With this model limited to 316 pieces only – after the 316L premium steel alloy used in the case, but specifically named after its bezel – we anticipate that the C60 Trident 316L will become just as sought after as its spiritual predecessor.

Technical information

Features

- Swiss made
- 26 jewel self-winding mechanical movement
- 38 hour power reserve
- Date calendar
- Central hacking seconds
- Anti-shock system
- Screw-in crown
- Uni-directional brushed steel (316L) bezel
- 3.4mm anti-reflective sapphire crystal
- Matte finish orange dial
- Super-Luminova® dial indexes and hands
- Signature Trident counter-balance on seconds hand
- Screw-down deep-stamped 3D backplate
- Unique engraved serial number

Technical

Diameter:	43mm

S. STEEL - 60 ATM

MADE IN SWITZERLAND

Setting the time/date

1. Crown screw-in position
2. Manual winding
3. Date setting
4. Time setting

Unscrew and then pull out

For a superior water resistance your crown is of the screw-in type. The crown should sit flush to the case (position **1**) in order to maintain water resistance.

- First unscrew the crown anti-clockwise from the case to position **2** for winding in power. Wind in a clockwise direction to re-power the watch. Your C60 Trident 316L has a maximum power reserve of 38 hours when fully wound. Normal wearing will allow the rotor to start re-powering the watch over time after putting it on your wrist.
- Pull gently into position **3**. For rapid date correction, turn in a clockwise direction.
- Pull gently into position **4**. This position is used for handsetting and stopping of the second hand. For precise time setting it is recommended to pass beyond the desired minute and to set the hand backwards.

PLEASE NOTE: Date correction should not be carried out between 20.00 hr and 02.00 hr as the watch gearing will already be aligning itself to change the date. The crown should always be pushed in after adjustment, and it is best to do so from position **3** to avoid advancing beyond the desired date.

You must always ensure the crown is fully tightened before any use in water.

Straps and bracelets

As you would expect, we place as much emphasis on the quality of our straps and bracelets as we do our watches. We only use the finest metals in the construction of our bracelets, all of which are precision engineered for durability, efficiency and comfort. The following guidelines explain how easy it is to use and adjust your Christopher Ward bracelet.

1. Press buttons to release.

2. Pull open the clasp.

3. There are five micro-adjustment positions, which allow for a maximum extension of 8.4mm. To extend, pull the lever to unlock and simultaneously pull on the bracelet into the desired position.

4. To shorten, simply push the bracelet back into the clasp.

Water resistance

Although your watch has been through vigorous static pressure testing, it is worth remembering that there are many variables that can affect the water resistance of your watch.

For instance, arm movements during swimming and the sudden impact of diving and water sports will drastically increase the pressure the watch is under. Wearing your watch in the bath, shower, or sauna can also have an effect as a rapid increase in temperature can cause seals to expand and in extreme cases, malfunction or create condensation.

For these reasons, the water resistance rating of your watch (as shown) should only ever be considered a guideline and we strongly recommend they are always adhered to.

1 ATM (10 metres)

Safe to wear your watch while washing your hands with tap water.

3 ATM (30 metres)

Washing your car and/or general hose pipe usage.

5 ATM (50 metres)

Water resistant to most household shower units.

15 ATM (150 metres)

Safe to use while snorkelling in open water.

30 ATM (300 metres)

Ideal for experienced divers and those practising scuba-diving.

60 ATM (600 metres)

Professional divers, experiencing prolonged exposure underwater.

100 ATM (1000 metres)

Professional deep sea diving.

Our watch care programme

Your watch is constructed from the finest components and materials available including one of Switzerland's finest mechanical movements. As with all watches of this quality, with the right care and attention, your new Christopher Ward watch has the potential to become an heirloom piece giving further joy to future generations. It's for this reason we have created our industry leading approach to after-sales care, starting with our famous 60|60 Guarantee which remains the most comprehensive guarantee in the world of watchmaking.

Visit our website for more details about our 60|60 Guarantee and Service and Repair Programme.

60|60 Guarantee

1. 60 Day free returns

Our success depends on you being completely happy with your new Christopher Ward watch. You have up to 60 days to return your watch, absolutely free of charge, and receive a replacement or full refund by return – so long as it has not been worn and is returned in box-perfect condition.

2. 60 Month movement guarantee

Your watch, at its heart, has a top quality precision engineered Swiss movement – so it's very unlikely to give you problems with the minimum amount of care and attention, including a regular service. We recommend you return your watch to us every 3/4 years for a service, so our expert technicians can keep your fine timepiece in peak condition.

Servicing and repairs...the Christopher Ward way...

Our innovative approach to servicing and repairing your Christopher Ward watch means that having your watch serviced or repaired doesn't mean months of waiting followed by an exorbitant bill – which is more or less the experience guaranteed by every other luxury watch brand. We have developed an easy, quick and affordable expert service and repairs programme that doesn't cost the earth and has your watch back where it belongs – on your wrist – in double-quick time.

Keeping in touch with Christopher Ward

From small beginnings just a few short years ago (our first workshop was actually a refurbished chicken shed!), Christopher Ward has won a worldwide following for his eponymous watch brand and can justifiably claim to manufacture the most affordable luxury watches in the world.

For many, the philosophy behind the brand, of trying to put luxury watches within the reach of everyone, is as attractive as the watches themselves, as is the very open approach of the business which means that Chris and the team spend a lot of time communicating personally with our customers – many of whom have become friends.

As the owner of a Christopher Ward watch, if ever you need to get hold of us we are at your service. We have listed some useful contact details on the back cover.

There is also always something new going on at our website at **www.christopherward.co.uk** and, if you haven't already discovered the independent forum dedicated to our brand at **www.christopherwardforum.com** we would recommend a visit. Informative and fun, it's a great place to hear the unexpurgated view of Christopher Ward.
